

**PRODUCT DATA SHEET**

# Pacejet enterprise shipping for NetSuite

The only complete freight quoting and shipping solution built for NetSuite

Pacejet cloud-based shipping software integrates NetSuite with more freight, parcel, 3PL carriers and shipping services than any other Built for NetSuite application, helping NetSuite users manage millions of quotes and shipments with reduced costs and increased efficiency.

## Offering shipping solutions that give you an edge

- Freight quotes with rate-shop reduces shipping costs and improves shipping estimates by displaying LTL, parcel, 3PL services, prices, transit times in real-time.
- Quote in estimates, orders, fulfillments, purchasing, e-commerce to offer the best shipping services at the lowest prices with fewer charge-backs and no surprise service fees.
- Complete freight management with bill of lading via FedEx freight, UPS freight, and many other national and regional LTL carriers and 3PL services via the Pacejet carrier network.
- Pack products into containers, scan verify, and integrate with scales to record dimensions, weight, class, and item detail for more accurate shipping, better tracking, and improved paperwork.
- Negotiated rates, list prices, pricing rules let you define your shipment pricing and charge customers based on your contract costs to maximize cost recovery while remaining price competitive.
- Freight terms, mark-up, third party accounts, billing, and other financial controls manage how customers or third parties are billed to improve the accuracy and completeness of shipping cost recovery.
- Shipping workbench to quickly scan, pack, consolidate, rate-shop, batch as you automate NetSuite for large batches or streamlined workflows.
- Purchase order drop-ship and inbound freight quotes help you estimate shipping costs accurately for vendor drop shipments and inbound purchases.

## What customers are saying

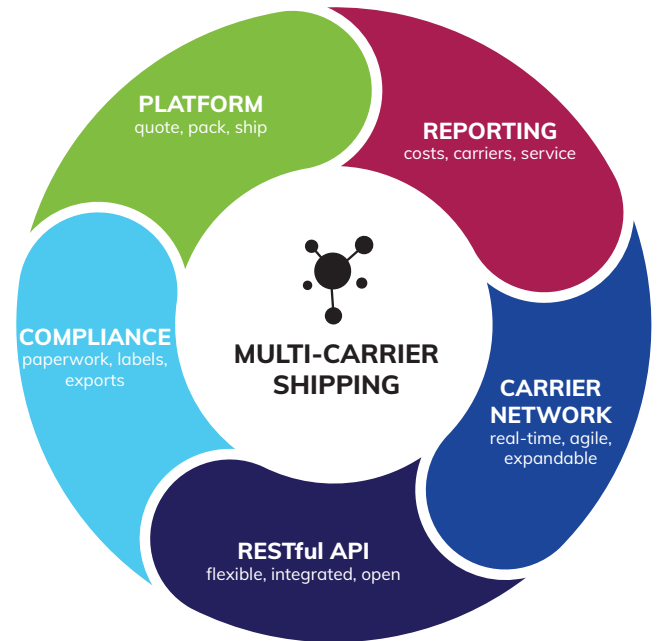

*“Pacejet has all the shipping features we need, while giving our customers the most cost-effective shipping options.”*

*- Chris Gripp, President, SignWarehouse®, Inc.*

**ORACLE + NETSUITE****PARTNER OF THE YEAR****2017****SUITECLOUD**

## Why choose Pacejete enterprise shipping for NetSuite?

- Pacejet is the 2017 SuiteCloud Partner of the Year, recognized for helping NetSuite users manage millions of quotes and shipments with reduced costs and increased efficiency.
- Multi-carrier in one user interface means more efficient and easier shipping without bolt-on of multiple software applications or websites for all LTL, parcel, 3PL carriers.
- More complete parcel support for core UPS, FedEx, USPS carriers with the latest certifications.
- Freight quotes with rate shopping help customer service, sales, and shipping teams make better decisions to reduce costs for you and customers.
- More integrated shipping carriers to quote and ship via LTL, parcel, 3PL carriers without installing and learning multiple software application and multiple interfaces.
- Carrier network integrates NetSuite to shipping carriers for online, real-time, accurate shipping.
- Built for NetSuite verified with robust integration in orders, estimates, transfers, purchase orders, and more.
- SuiteScript support via the Pacejet RESTful API lets you customize or extend to quote and ship your way.
- Additional advanced features including support for NetSuite WMS Lite, Scan Pack, export paperwork, batch, and more.
