

DATA SHEET

SuiteCommerce Integrations

Utilize the power of Pacejet to help accelerate your e-commerce shipping. Give your customers upfront pricing and a timeline with our SuiteCommerce/SuiteCommerce Advanced integrations

Our complete integration for SuiteCommerce/SuiteCommerce Advanced provides your business with buildable tools to amplify your e-commerce business through our API. Enable real-time rates, better tracking, and a customizable experience that will delight your customers and gives them accurate, live information.

Key features of our SuiteCommerce Integrations:

- **Provide a fast, efficient, and streamlined** checkout experience
- **Display accurate shipping rates** and visibility into delivery time options
- **Improve and fulfill customer experience**, expectation, and satisfaction
- **Reduce the risk of accruing additional costs** by eliminating flat rate shipping options on your e-commerce shipping site
- **Utilize a native integration to SuiteCommerce/SuiteCommerce Advanced** that seamlessly implements an effective checkout experience to your existing website
- **Customize your checkout experience** to achieve the aesthetic you want by building it yourself using our API or by leveraging our full integration extension designed by NetSuite SuiteCloud Partner of the Year, 2018, Tavano Team

With our integrations or API, you'll be able to meet and exceed your customers' expectations by delivering a more streamlined experience and upfront pricing. Tap into Pacejet's fully connected shipping and save money all while delivering excellent customer experiences.

Business benefits

Real-time rates

Live rates with improved package tracking that provides you and your customers with accurate visibility, leading to increased customer satisfaction

Avoid absorbing costs

Save money by avoiding potentially expensive additional fees and surcharges
